GitHub: github.com/olracnaej

PROFESSIONAL SUMMARY

Computer Systems Engineering student with certifications and technical specializations in networking, cybersecurity, web design and development, data analysis, and cloud computing. Three years of hands-on experience as a freelance full stack web developer, building secure e-commerce, invoicing, and package tracking systems for small businesses. Previous experience as a Spanish-English interpreter and in customer service. Fluent in English and Spanish.

TECHNICAL SKILLS

Web Design and Development

- Front-End: HTML5, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Bootstrap, jQuery, AJAX
- Back-End: TypeScript, PHP, Laravel, Blade, Java, Python, REST APIs, JWT Authentication
- Web APIs & Integrations: Fetch API, Web Share API, JSON, Google Sheets API, Google Apps Script
- Databases & ORMs: SQL, MySQL, Prisma ORM, Database Design & Management
- Tooling: npm, Composer, Vite, ESLint
- CMS & E-commerce: WordPress, E-commerce, Invoicing Systems, Admin Dashboards
- Deployment: Vercel, Railway, Web Hosting

Networking

- Network Fundamentals, Network Simulation (Cisco Packet Tracer), Network Device Configuration
- Network Programming: TCP Sockets, HTTP Clients, Client-Server Communication

Cybersecurity

- Security: Network Defense, Endpoint Security, Cyber Threat Management
- Secure Web Development: Password Hashing (bcrypt), JWT Session Authentication, Protected Routes, Input Validation
- Operating Systems & Scripting: Linux (multiple distributions), Bash, PowerShell

- Virtualization & Labs: VirtualBox, VMware

Data Analytics

- Languages: SQL, Python, R
- Databases & Data Platforms: MySQL, SQL Server, Supabase, Railway, Prisma ORM
- Analytics: Databricks (SQL Analytics, AI/BI for Data Analysts)
- Business Intelligence & Reporting: Power BI, Google Sheets Integration

IT Support

- Operating Systems: Windows, Linux (multiple distributions), Android, iOS
- Hardware: Hardware Installation and Repair, Data Backup
- Productivity & Cloud Services: Microsoft 365, Google Workspace
- Service Desk Tools: ServiceNow, Jira, CRM Systems

Tools

- Development Environments: Visual Studio Code, IntelliJ IDEA, Eclipse, NetBeans, Android Studio
- Version Control & Project Management: Git, GitHub, Jira
- IT Support & Collaboration: ServiceNow, Microsoft 365, CRM Systems
- AI Assistants: Claude, ChatGPT, Gemini, Copilot, DeepSeek
- Databases & Data Analysis: SQL Server, Visual Studio, Power BI

PROFESSIONAL EXPERIENCE

Web Developer (Freelance, Remote) — Oct 2023 - Present

- Built and run business for 3 years, serving 300+ clients across 2 provinces of Costa Rica, from database design to deployment and ongoing maintenance.
- Design and build full stack solutions for small businesses, including online stores, invoicing systems, package tracking platforms, and admin dashboards, from database design to deployment.
- Write code in multiple languages (PHP, JavaScript, TypeScript, Python, Java, SQL, R), choosing the right tool for each project.
- Deploy and host applications on cloud platforms (Vercel, Railway), managing environments, databases, and hosting resources, and completing training in Google Cloud.

- Protect applications and user accounts against cyberattacks, including man-in-the-middle attacks, with password hashing, JWT session authentication, HTTPS encryption, input validation, and environment variables for secrets.
- Analyze data in MySQL databases with SQL and build reports and dashboards in Power BI and Google Sheets to support business decisions.
- Publish demo projects on GitHub at github.com/olracnaej, including an invoicing system, a package tracking platform with Google Sheets integration, an Android step counter app, and a personal portfolio.

Interpreter Spanish-English, TransPerfect (Hybrid)
Alajuela, Costa Rica | Nov 2025 - May 2026

- Provided real-time phone and video interpretation in medical, legal, and insurance settings, working accurately and confidentially.

Interpreter Spanish-English (Independent Contractor), Propio Language Services (Remote)
Oct 2025 - May 2026

- Delivered over-the-phone and video interpretation for medical, legal, insurance, customer service, and many other services.

Interpreter Spanish-English, CyraCom Language Solutions
Heredia, Costa Rica | Feb 2025 - Sep 2025

- Interpreted by phone and video across medical, legal, insurance, customer service, and business interactions in English and Spanish.

Customer Service Representative, SSG Support Services Group
Heredia, Costa Rica | Sep 2023 - Nov 2024

- Assisted customers of an online betting platform across phone, chat, and email.
- Managed and documented every case in CRM systems, keeping follow-ups organized across all channels while solving account, payment, and platform issues, keeping response times short and service quality high.

Customer Service Representative (Chats), Concentrix
San Jose, Costa Rica | May 2022 - Jul 2023

- Handled live chat conversations for a US banking client, working only in written support.
- Logged customer interactions and tracked open requests through CRM systems, where I answered banking questions and resolved issues accurately while following security and compliance procedures.

EDUCATION

Bachelor’s Degree, Computer Systems Engineering
Universidad Latina de Costa Rica | 2023 - Present (expected 2027)

Cybersecurity Specialization
Universidad Latina de Costa Rica | 2024

Web Design and Development Specialization
Universidad Fidélitas | 2026

Junior Cybersecurity Analyst
Cisco Networking Academy | 2026

English for Service Centers | INA | 2017
Office Applications Operator | INA | 2015

CERTIFICATIONS

Web Development (Universidad Fidélitas)

- Website Administration (WordPress)
- PHP
- Databases (MySQL)
- AJAX
- jQuery Framework
- JavaScript
- Dynamic Web Pages (CSS Bootstrap)
- HTML5 and CSS

Cybersecurity (Cisco, TryHackMe)

- Junior Cybersecurity Analyst Career Path, Cisco
- Cyber Threat Management, Cisco
- Network Defense, Cisco
- Endpoint Security, Cisco
- Introduction to Cybersecurity, Cisco
- Pre Security, TryHackMe

Networking (Cisco)

- Networking Devices and Initial Configuration
- Networking Basics
- Introduction to Packet Tracer

Data and Programming (Cisco - MICITT)

- Data Analytics Essentials

- Python Essentials 1

Data Analytics (Databricks)

- Knowledge Badge - SQL Analytics on Databricks
- Knowledge Badge - AI/BI for Data Analysts

LANGUAGES
Spanish: Native
English: Fluent (bilingual)
